

## Erase files from a CD-RW in Windows XP

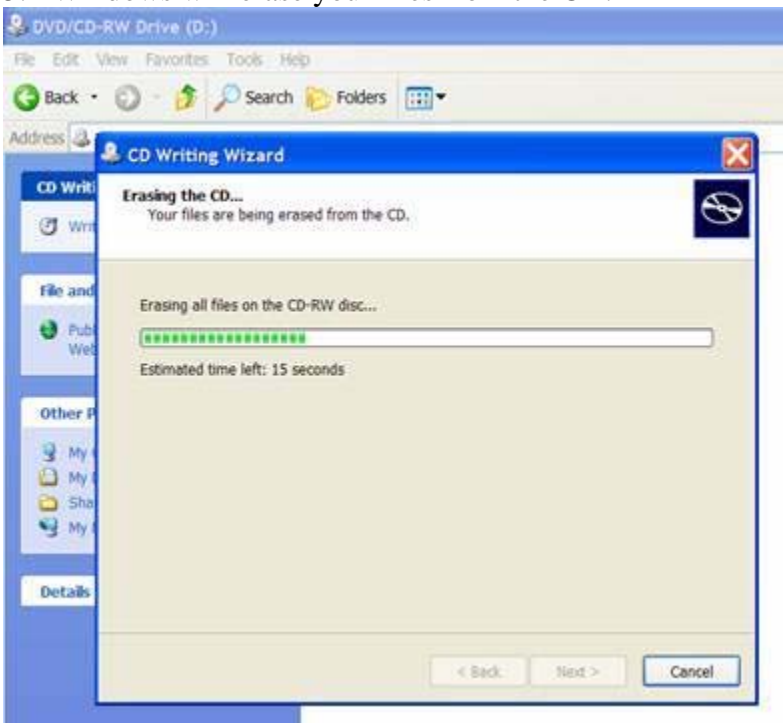

1. Open My Computer.
2. Double-click the CD recording drive. Windows displays the files and folders located on the CD.
3. Under **CD Writing Tasks**, click **Erase this CD-RW**. Windows displays the CD Writing Wizard.

4. When Windows displays the CD Writing Wizard, click “Next.”

5. Windows will erase your files from the CD.

6. When this window comes out, click “Finish” to end this operation. Now you can write new files to the CD.

\*\*\* Part of the material is from Windows XP Help and Support Center. You can view them by click My Computer, choose Help and Support Center under Help menu.
